

Guest Speaker

Ranger Brody Young, was a Utah State Park Ranger whose life changed the day he began his patrol on the early evening of November 19, 2010. Shot 9 times during an ambush, he had no pulse or heartbeat, but miraculously survived and was in a comma for a month.

Brody's inspirational story, "9 Miracles", centers around his strength, family, training, and perseverance. As a motivational speaker, Brody routinely speaks at the Department of Justice, FBI and other service-oriented agencies about overcoming the ordinary and extraordinary challenges we all face.

As the world navigates the recent pandemic, Brody's story is sure to inspire us all and remind us of the important role we play as past and present U.S. Navy Supply Corps officers. Read more about Brody at <http://rangerbrodyyoung.com/>.

"Do some good!

Shake off the regret from the borrowed time we have.

Live everyday as if it was your last."

-Brody Young
