\*\*\*\*\*

**MMG Leaders, Location, and Military Transition**

Do you have a preferred location where you and your family desire to live, work, and play after you leave active duty? Are you growing frustrated at being told that if you target a specific location, you must be willing to make sacrifices for your next career? Are you tired of recruiting firms constantly trying to convince you to move to places you and your family have no desire to live?

***The unadvertised truth is you can have a rewarding post military career doing what you desire and have it located exactly where you want it to be, whether that is where you currently live or where you want to go.***

In 1986, Neil McNulty, a former Marine Corps officer, created the USA’s only placement model for transitioning military who desire satisfying civilian careers in specific locations. Not just a “region”, but within just **thirty miles** of a favorite point on the map. Neil is CEO of MMG Leaders ([www.MMGLeaders.com](http://www.MMGLeaders.com)). MMG Leaders has placed thousands of transitioning military of all ranks and grades by *geographically targeted* placement using its *30/30 Placement Program™*, America’s only model for placing military into great careers within 30 miles of a point on a map.

Contact MMG Leaders at 757.460.0510 or visit the website for details.

**Subject:** DAU CFO Opening

**Overview**

The performance and Resource management Directorate (PRM) is responsible for business oversight and financial management of the University's resources relating to its program and operations, including all resource aspects of DoD's planning, programming, budgeting, and execution processes. A viable core of the University's success exists in an integrated business infrastructure that enables leaders to access real time mission performance, course scheduling, customer satisfaction, time accounting, human resource, and financial management data to shape and formulate key decisions at all levels. The backbone of this infrastructure is an enterprise Data Mart with links to DoD business systems such as Defense Finance and Accounting Service Systems, the Defense Civilian Personnel System, and Services' training record interfaces. This enterprise approach facilitates strategic decisions at senior levels via triannual Resource councils and triannual forums for Enterprise Performance Review and Analysis to maximize University synergy and effort.

**PRM Mission Statement**

DAU's mission: Provide a global learning environment to develop qualified acquisition, requirements and contingency professionals who deliver and sustain effective and affordable warfighting capabilities.

Vision: An accomplished and adaptive workforce, giving the warfighter a decisive edge.

**PRM Responsibilities**

PRM is responsible for business oversight and financial management of the University's resources relating to its program and operations, including all resource aspects of DOD's planning, programming, budgeting, and execution process.

The subject position has been posted on USAJOBS and is open to receive applications starting tomorrow. There is one vacancy for this position. It has been opened with one area of consideration for applicants. Below is the announcement summary and link.

Subject: Job Postings - NAVAIR

Senior IT Management Analyst. Nakupuna Solutions is seeking a Senior IT Management Analyst to provide oversight of development of automated tracking tools necessary to support programs within Naval Air Systems Command's (NAVAIR's) Command Property Office. Candidate must have 8+ years of experience with DoD Logistics IT systems, as well as expertise in the most current principles of architecture data management systems and experience in large system design, data modeling and dashboard design and visualization. Knowledge of NAVAIR logistics IT platforms strongly desired. This position requires a bachelor's degree from an accredited institution in business or related field, or 6 years equivalent experience. This position is primarily telework, but will require occasional travel to a military installation and therefore the candidate must be able to qualify for and obtain a base access pass. The candidate must also be able to obtain a favorable National Security Agency Check (NACI) including a FBI fingerprint check and obtain and maintain a CAC. Great, fast growing company, competitive salary and generous benefits.

**Position:** Senior IT Management Analyst

**Job Purpose:** The purpose of this position is to provide oversight of development of automated tracking tools necessary to support programs within NAVAIR's Command Property Office. This person will use established fact-finding approaches, knowledge of pertinent work processes and procedures, and familiarity with related computer programming practices, system software, and computer equipment to enhance NAVAIR's capabilities surrounding logistics and inventory systems.

**Job Duties Include:** The following reflects management's definition of essential functions for this job but does not restrict the tasks that may be assigned. Management may assign additional duties and responsibilities to this job at any time due to reasonable accommodation or other

reasons. Specific duties include:

- Provide oversight of development of automated tracking tools necessary to support programs.
- Use established fact-finding approaches, knowledge of pertinent work processes and procedures, and familiarity with related computer programming practices, system software, and computer equipment.
- Lead fact finding and analysis, determines nature of the system, feasibility, computer equipment and programming language necessary to achieve desired outcome.
- Plan, coordinate, and facilitate information system related activities such as upgrade of hardware and software, program and system design development of computer networks, and implementation of internet and intranet sites.
- Leads in the upkeep, maintenance and security of networks.
- Ensures the availability, continuity, and security of data and information technology.
- Leads and provides recommendations supporting process improvement initiatives.
- Assist Program Manager(s) in developing Web based CAC-Enabled interface.
- Develop strategies that enable the ability to ingest very large structured and unstructured datasets (scalability), and direct pulls from organic/contractor ERP systems to help manage a portfolio of KPIs for each property segment ensuring adherence to developed internal controls supporting audit compliancy.
- Assist in design of dashboards and visualizations via the QLIK application.
- Develop strategies to push modeling results developed through advanced analytics tools to visualization tools.
- Integration of other analytics tools and LOG-IT programs.
- Provide consistent maintenance and updates to necessary statistical packages and add-ons in order to continue incremental improvements to reporting, analysis, and forecasting.

**Skills/Qualifications:** Must have experience with the DoD Logistics IT portfolio, as well as expertise in the most current principles of architecture data management systems and experience in large system designs and data modeling. Knowledge of NAVAIR logistics IT platforms strongly desired.

**Education and Experience:** This position requires a bachelor's degree from an accredited institution in business or related field, or 6 years equivalent experience. The following are required levels of experience:

- 8+ years of experience working with DoD Logistics IT systems

**Military Installation Access:** This position is primarily telework, but will require occasional travel to a military installation and therefore the candidate must be able to qualify for and obtain a base access pass. The candidate must also be able to obtain a favorable National Security Agency Check (NACI) including a FBI fingerprint check and obtain and maintain a CAC.

**Competencies:**

- **Analytical** - Synthesizes complex or diverse information; Collects and researches data; Uses intuition and experience to complement data; Designs work flows and procedures.
- **Problem Solving** - Identifies and resolves problems in a timely manner; Gathers and analyzes information skillfully; Develops alternative solutions; Works well in group problem solving situations; Uses reason even when dealing with emotional topics.
- **Customer Service** - Demonstrates ability to deliver excellence by taking personal accountability for achieving high quality outcomes. Manages difficult or emotional customer situations; responds promptly to customer needs; solicits customer feedback to improve service; responds to requests for service and assistance; meets commitments; and adapts to changing business needs, conditions, and work responsibilities.
- **Oral Communication** - Speaks clearly and persuasively in positive or negative situations; listens and gets clarification; responds well to questions; demonstrates group presentation skills; participates in meetings.
- **Written Communication** - Writes clearly and informatively; edits work for spelling and grammar; varies writing style to meet needs; presents numerical data effectively; able to read and interpret written information.
- **Ethics** - Earns others' trust and respect through consistent honesty and professionalism in all interactions. Treats people with respect; keeps commitments; inspires the trust of others; works with integrity; and upholds organizational values.
- **Quality** - Demonstrates accuracy and thoroughness; Looks for ways to improve and promote quality; Applies feedback to improve performance; Monitors own work to ensure quality.
- **Teamwork** – Is supportive of and collaborates effectively with co-workers to provide high quality outcomes in support of client requirements. Maintains high standards for professional conduct in dealing with co-workers and clients.

Senior Analyst.. Nakupuna Solutions is seeking a Senior Analyst to support various Naval Air Systems Command (NAVAIR) Program Offices (PMAs) and/or NAVAIR's Command Property Office (CPO) functions that will advise, analyze, and provide recommendations for process improvement to support NAVAIR. This initiative will optimize NAVAIR property governance/accountability processes to support ongoing DoD audit efforts. Candidate must have experience in NAVAIR acquisition and/or logistics processes; capable of managing client expectations and delivering high-quality products and services; and be self-motivated, able to prepare and present information, problem solve, multi-task, and possess exceptional written and oral communication skills. The candidate must also possess knowledge of the NAVAIR organization, and experience with property governance/accountability is desired. Candidate must have 6+ years of experience with or for the NAVAIR organization in acquisition/logistics. This position requires a bachelor's degree from an accredited institution in business or related field, or 6 years equivalent experience. This position is primarily telework, but will require occasional travel to a military installation and therefore the candidate must be able to qualify for and obtain a base access pass. The candidate must also be able to obtain a favorable National Security Agency Check (NACI) including a FBI fingerprint check and obtain and maintain a CAC. Great, fast growing company, competitive salary and generous benefits.

**Position:** Senior Analyst

**Job Purpose:** The purpose of this position is to support various Program Offices (PMA) and/or Command Property Office (CPO) functions that will advise, analyze, and provide recommendations for process improvement to support NAVAIR. This initiative will optimize NAVAIR property governance/accountability processes to support ongoing DoD audit efforts. To be successful, the Senior Analyst will be required to have experience working with or for the NAVAIR organization, experience with Navy acquisition & logistics, and the ability to deliver exceptional products & services to the client.

**Job Duties Include:** The following reflects management's definition of essential functions for this job but does not restrict the tasks that may be assigned. Management may assign additional duties and responsibilities to this job at any time due to reasonable accommodation or other reasons. Specific duties include:

- Achieves operational objectives by contributing information and recommendations to strategic plans. Prepares, reviews, and completes actions plans. Implements production, productivity, quality, and customer-service standards; resolves problems; completes audits; identifies trends, determines system improvements, and executes changes
- Serve as an independent liaison for all property accountability projects
- Provide guidance and direction in administering a property accountability program
- Evaluate contracts and government furnished equipment to determine locations of inventory
- Identify and document inventory deficiencies while providing corrective action recommendations
- Document and execute customer requirements, discuss potential solutions, identify risks, etc.

- Answer all property related data calls originating from NAVAIR PEOs and NAVAIR CPO Program IPT Leads
- Assist in making recommendations to NAVAIR personnel on any improvements that could be made to improve inventory management and control practices
- Research program material for disposition including disposal, transfer of custody to other Budget Submission Offices, and warehouse consolidation recommendations
- Facilitate design workshops to define, finalize and test business requirements
- Analyze large sets of data to make recommendations to NAVAIR regarding process improvement
- Translate requirements into technical solutions
- Assist with testing and analyzing inventory controls, deficiencies, and develop remediation plans for improvement
- Identify and document process and functional gaps as well as opportunities for improved performance related to NAVAIR property governance
- Evaluate proposed changes using analytical based decision making
- Maintain user confidence and protect operations by keeping information confidential
- Keep Nakupuna leadership abreast of project execution, requirements exceeding defined scope of work, and risks to timelines or deliverables

**Skills/Qualifications:** Must have experience in NAVAIR acquisition and/or logistics. Must have experience managing client expectations and delivering high-quality service. Must be self-motivated, able to prepare and present information, problem solve, multi-task, and possess exceptional written and oral communication skills. Must have knowledge of the NAVAIR organization, as well as Navy acquisition and logistics processes. Experience with property governance/accountability is desired.

**Education and Experience:** This position requires a bachelor's degree from an accredited institution in business or related field, or 6 years equivalent experience. The following are required levels of experience:

- 6+ years of experience working with or for the NAVAIR organization in acquisition/logistics

**Military Installation Access:** This position is primarily telework but will require occasional travel to a military installation and therefore the candidate must be able to qualify for and obtain a base access pass. The candidate must also be able to obtain a favorable National Security Agency Check (NACI) including a FBI fingerprint check and obtain and maintain a CAC.

**Competencies:**

- **Analytical** - Synthesizes complex or diverse information; Collects and researches data; Uses intuition and experience to complement data; Designs work flows and procedures.
- **Problem Solving** - Identifies and resolves problems in a timely manner; Gathers and analyzes information skillfully; Develops alternative solutions; Works well in group problem solving situations; Uses reason even when dealing with emotional topics.

Mr. Loren V. Heckelman  
Captain, U.S. Navy (Ret.)

Norfolk NAVNET is a group of active and retired military officers and senior enlisted members seeking to

network with others and those who are in a period of transition. The group is strictly voluntary and no fee or dues are required. We publish job opportunities from a variety of sources, both in and out of the area, via email to our network members. The opportunities cover a wide range of career fields and locations. The NAVNET has a monthly breakfast on the 3rd Friday of each month and network members will receive an invite each month with additional details, along with the latest NAVNET roster. Please feel free to contact other members of the NAVNET. The information in the roster is not to be used for purposes other than networking (e.g., solicitations). The Norfolk NAVNET is also on LinkedIn.

=====

PLEASE NO SOLICITING NORFOLK NAVNET MEMBERS

WE WILL LOSE MEMBERS AND JOB LEADS WHICH IS A DISSERVICE TO THOSE LOOKING FOR WORK
